ROKPA USA

Providing education and medical training in Tibetan medicine in Tibet. ROKPA works to revive the ancient science of Tibetan medicine in Tibet. The organization raises funding for medical colleges to give the young men and women of current-day Tibet a profession that will make them self-supporting, while providing health care in isolated and poor communities.

Switzerland

Padma, Inc.

Padma Inc. in Switzerland is the only firm in the western world who manufactures Tibetan herbal remedies according to international standards. Padma produces natural remedies and supplements derived from traditional Tibetan formulas at Padma's own plant in Wetzikon, Switzerland. Production is performed in conformity with modern manufacturing practices that include clinical research, laboratory testing and state-of-the-art quality control tests. Padma Inc. constantly furthers its research to substantiate the efficacy of Tibetan health practices. Research is being performed in well known hospitals and universities in various countries. Through research, protection of botanical resources, support of Tibetan medical scholarship and introduction of Tibetan herbals to new markets, Padma promotes the survival of this important Tibetan tradition.
